

Swim Central: Adding a New Family Member 17 yrs&U

Joining the Club involves completion or confirmation of membership details online through Swimming Australia's Swim Central system and payment of the required membership fee. The swimming membership year runs from 1st July to 30th June.

If your family already has an account in Swim Central you do not need to create another account when a new family member e.g. younger sibling joins the Club. Instead you should add them to your existing family account.

TO ADD AN EXTRA FAMILY MEMBER:

- Sign In to your family account in Swim Central (swimcentral.swimming.org.au) using the login details you have already setup for your family.
